

# COMMERCIAL 84

The Sturdy  
Panel by

Canadian Manufacturer of Aluminium Products.

The **Commercial 84** Panel is ideal for commercial buildings as well as for residential homes

This is a concept based on the **PERMALOCK** system through which each panel is sturdily locked full length. Every attachment point becomes thicker as well as their sizes is doubled, improving protection or architectural components covered with **Commercial 84** (See Illustration a and b).

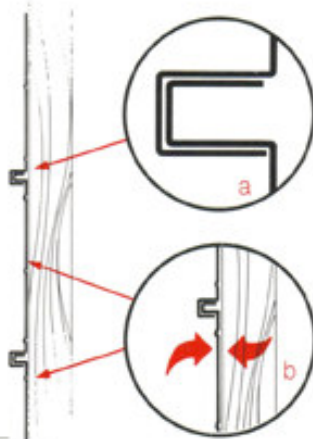

Through the wide range of colours available, it is possible to create an harmony in connection with the design.

**Commercial 84** flexibility is building-up a growing popularity with contractors as well as consumers. **Commercial 84** may be used into home improvements and building of new sites. In fact, this new pre-finish panel can be installed in any way and highlights every pieces of architecture.

**Commercial 84** Panel is covered by the famous **ARCAN** Warranty

(Authorized Arcan Distributor)

- a) An highly sturdy Panel because each panel is sturdily locked full length resulting into an improved protection of architectural components.
- b) An highly sturdy Panel because more than 75% of the overall area of each panel comes directly into contact with the area to be covered.

# manufactures the best roof panel for your mobile home

Here's now the brand new product from the

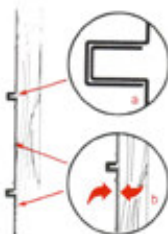

range of aluminium products, the **COMMERCIAL 84** this highly effective roof panel provides an all-proof tightness as well as the best cold weather protection.

**COMMERCIAL 84** designers successfully reached that step based upon the **PERMALOCK** system through which each attachment point is securely locked into one another giving a double protection on the panel full length.

## COMMERCIAL 84

**a) An highly sturdy Panel**  
because each panel is double-locked full length resulting into an improved protection of architectural components.

**b) An highly sturdy Panel**  
because more than 70% of the overall area of each panel comes directly into contact with the area to be covered.

In addition the **COMMERCIAL 84** shows all other features which you require from any roof panel of such quality:

- ☒ No more maintenance
- ☒ No more painting
- ☒ No more caulking
- ☒ No more snow-shoveling
- ☒ More comfortable in the summer
- ☒ Save energy in winter

As shown in this diagram, when the **COMMERCIAL 84** is applied on the area covered with Styrofoam, you get an all-proof tightness.

With **ARCAN**, you increase your mobile home value...  
A convincing argument when you plan improvement.

The **Commercial 84** roof panel bears the famous **ARCAN** warranty.

*the faithful friend of the mobile home owner.*
