PRODUCT

# CONDENSTOP™

is a nonwoven fleece with microspheres which is factory laminated to our pre-painted Ameri-Cana™ panel that absorbs, redistributes and dries condensation.

## BENEFITS:

- Eliminates condensation on the back side of the steel panel
- Increases interior corrosion protection against humidity and livestock vapours
- Replaces standard vapour retarders
- Reduces sounds from inside and outside the building
- Eliminates mould
- Light Grey colour, gives a uniform look
- 20 year delamination warranty
- Class I flame retardant as per ASTM E84 - 04
